Welcome back to Mrs King and Mrs Burgess from Long Service Leave. We hope that their break was enjoyable. Thank you to Kylie Egan for working in the office during Lynne’s leave.

CarPark
Parents are asked to ensure that they drive though the carpark at a very slow pace at all times. This includes the access road up to and away from the school. This is for the safety of everyone. I have also bought this to the attention of parents who use the After School Care facilities.

Pupil Free Day
The final pupil free day for the year will be on August 10. Students will not be required at school on that day.

Help Needed
I have been asked by a family for some assistance getting their child to school. The family live in Leopold. It is only in the morning that help is required. If you can help please let me know and I will put you in touch with the family.

School Uniform
A reminder that the expectation is that students will be in school uniform each day.

Fresh Fruit Friday
Fresh Fruit Friday will be continuing for the next few weeks. Kylie Egan has registered the school for a sponsorship with Boost Juice. If successful the program will continue for the rest of the year.

Somers Camp
Somers School Camp is a Department of Education and Early Childhood Development school that provides a program for Year 5 and 6 children. Each Victorian government primary school has the opportunity to send children to camp once every two years. One hundred and sixty children (80 boys and 80 girls) attend the nine-day camp.

Our district is scheduled to have students from the area attend the camp in December. The cost of the camp is $160.00.

Cyberbullying
The internet and digital technologies are now very much a part of life and learning. As an increasingly interactive medium, digital technologies bring with them exciting new opportunities to engage children and young people in their learning. At the same time these technologies also bring some risks. Increasingly schools are dealing with incidents of cyberbullying or unacceptable behaviour that have occurred in the online world or using technology such as mobile phones.

Cyberbullying is direct verbal or indirect bullying behaviours using digital technologies. This includes harassment via a mobile phone, setting up a defamatory personal website or deliberately excluding someone from social networking spaces. For young children, general internet safety tips are a good starting point to help them to become safe and responsible internet users.

- At this age children’s internet use should be closely monitored. To help with this try to keep the computer in a shared or visible place in the home.
- Be aware of how your child uses the internet and explore it with them. Bookmark a list of favourites you are comfortable with your child visiting and teach them how to access this list.
- Teach your child that there are ways they can deal with material that worries or frightens them. They should immediately tell a trusted adult if they feel uncomfortable about something they have found on the internet or received in an email. Teach them how to close a web page or turn off a monitor if they are worried.
- Establish rules around the types of content or information they should report to an adult. For example, one rule may be ‘tell Mum or Dad about any swearing or bad words you find’.
- Talk to your child about personal information and why it is special. This sort of information can be used to identify or locate where they live, go to school or activities in which they are involved.
- Set rules make sure your child knows what information they can share or post online and which websites they can visit. Telling a trusted adult before posting any personal information online, including for competition entry is a useful rule.
- Help your child understand that what they say and do online is important. Encourage your child to use the same manners, communicate with others in the same way and report others who aren’t being nice, just as they would in the offline world.
- Advise your child not to respond to any negative messages and to report any negative messages they receive to you or another trusted adult.
- Consider using filters, labels and safe zones to help manage your child’s online access.
- Install and update anti-virus and other e-security software to restrict unauthorised access to data on the home computer and protect that data from corruption. Ensure that security features including a firewall are turned on, set to automatic scan and updated regularly to protect against the latest risks.
- If your child shows changes in behaviour or mood that are concerning explore your concerns with them and if necessary seek professional support, including support through the Cybersmart Online Helpline at www.cybersmart.gov.au/report.aspx. The Cybersmart Online Helpline provides free, confidential online counselling for children and young people.
