### PRINCIPAL NEWS

It has been a long term with a lot happening. As usual the support that the school has received from parents has been outstanding. I am always amazed at how freely people give their time to help the school out as a whole. I would like to personally thank everybody for what they have done for the school this term. The effort from the school community is always appreciated.

Tomorrow is a Pupil Free Day. Children are not required at school.

#### Head Lice

We have had a few reports of head lice. Parents at Wallington have been terrific at monitoring this. Here are a couple of websites that may assist in the identifying and treating headlice (if necessary).

#### Reading

Comprehension is vital in gaining meaning. Below are some tips / questions that a reader may ask to themselves prior to and during the reading phase.

Strategies I can use to help me understand what I am reading.	Questions I might ask myself before and during reading
<b>CLARIFYING</b> Sentence level strategies for literal comprehension: Break text into bits. Decide where to pause. Listen to myself as I read, paraphrase the text. Act on ideas, put myself in the context. Visualise what was read. Monitor meaning of each sentence, re-read.	Where will I pause and ask: What has it told me? What are other ways of saying this sentence? How can I tell myself what it says? What I see/feel/hear/ do/ if I were in context? What picture can I make of the sentence? Does it make sense/fit in?
<b>COMPREHENSION/ UNDERSTANDING</b> User reading strategies to summarize, monitor, infer, evaluate comprehension of text. Go back over and check I understand it all. Underline, note down useful information. Infer, relate it to what I expected. Think ahead , predict, anticipate. Evaluate dispositional techniques. (Is this persuading me to think about the topic in a certain way?)	What do I know now? How does it fit with the topic? What has happened so far? Why did that happen? What might happen next? How has the text so far attempted to influence my view?
<b>WORD KNOWLEDGE</b> Word reading Strategies to work out new words: Use context of word + initial few sounds, word analysis and re-read. Work out the meaning of unfamiliar words	How can I say the word? What will I do? What does the word do in the sentence? What does it tell me about? What picture do I make with the sentence? What is another word I can say?
